

# Wetlands in Washington State

*Volume 2: Guidance for Protecting  
and Managing Wetlands*

Final

Funding for this project was funded in part through a grant from the United States Environmental Protection Agency (EPA Region 10 and EPA Headquarters Grant #'s CD-970018-01 and CD-970585-01, Joan Cabreza, grant officer). The views herein are those of the authors and do not necessarily reflect the views of EPA.

# Table of Contents

<b>LIST OF TABLES .....</b>	<b>viii</b>
<b>LIST OF FIGURES .....</b>	<b>ix</b>
<b>ACKNOWLEDGEMENTS.....</b>	<b>xi</b>
<b>CHAPTER 1 INTRODUCTION TO VOLUME 2 .....</b>	<b>1-1</b>
<b>1.1 OVERVIEW OF VOLUMES 1 AND 2 .....</b>	<b>1-1</b>
<b>1.2 PURPOSE AND GOALS OF VOLUME 2.....</b>	<b>1-2</b>
<b>1.3 SCOPE OF VOLUME 2 .....</b>	<b>1-5</b>
<b>1.4 DEVELOPING VOLUME 2 .....</b>	<b>1-6</b>
<b>1.5 HOW VOLUME 2 IS ORGANIZED.....</b>	<b>1-7</b>
<b>1.6 HOW TO USE VOLUME 2.....</b>	<b>1-7</b>
<b>1.7 USING SCIENCE TO PROTECT AND MANAGE WETLANDS .....</b>	<b>1-8</b>
1.7.1 Ecological Principles to Consider .....	1-9
1.7.2 Interpreting the Science.....	1-10
<b>1.8 SCIENCE AND RISK MANAGEMENT .....</b>	<b>1-11</b>
<b>CHAPTER 2 THE GROWTH MANAGEMENT ACT AND PROTECTION OF CRITICAL AREAS.....</b>	<b>2-1</b>
<b>2.1 INTRODUCTION .....</b>	<b>2-1</b>
<b>2.2 AN OVERVIEW OF THE GMA .....</b>	<b>2-1</b>
<b>2.3 A REVIEW OF HEARINGS BOARD CASES AND COURT CASES .....</b>	<b>2-2</b>
2.3.1 Designating Critical Areas and Adopting Regulations to Protect Them .....	2-3
2.3.2 Relationship of Critical Areas Regulations to Other Land Uses.....	2-5
2.3.3 Including Best Available Science in Critical Areas Regulations.....	2-6
2.3.4 Protecting the Functions and Values of Critical Areas .....	2-8
<b>CHAPTER 3 KEY CONCLUSIONS FROM VOLUME 1.....</b>	<b>3-1</b>
<b>3.1 INTRODUCTION .....</b>	<b>3-1</b>
<b>3.2 MAJOR CONCLUSIONS ABOUT OUR CURRENT EFFORTS TO PROTECT WETLANDS.....</b>	<b>3-1</b>
<b>3.3 WETLANDS IN WASHINGTON AND HOW THEY FUNCTION (CHAPTER 2 OF VOLUME 1).....</b>	<b>3-2</b>
3.3.1 Types of Wetland Functions and How They Are Controlled .....	3-2
3.3.2 Classification of Wetlands in Washington as a Key to Understanding Their Functions .....	3-3
<b>3.4 ENVIRONMENTAL DISTURBANCES CAUSED BY HUMAN ACTIVITIES AND USES OF THE LAND (CHAPTER 3 OF VOLUME 1) .....</b>	<b>3-4</b>
<b>3.5 NEGATIVE IMPACTS OF HUMAN DISTURBANCES ON THE FUNCTIONS OF WETLANDS (CHAPTER 4 OF VOLUME 1).....</b>	<b>3-7</b>

<b>3.6 THE SCIENCE AND EFFECTIVENESS OF WETLAND MANAGEMENT TOOLS (CHAPTER 5 OF VOLUME 1).....</b>	<b>3-9</b>
3.6.1 How Wetlands Are Defined .....	3-9
3.6.2 Wetland Buffers .....	3-10
<b>3.7 THE SCIENCE AND EFFECTIVENESS OF WETLAND MITIGATION (CHAPTER 6 OF VOLUME 1).....</b>	<b>3-11</b>
3.7.1 Compliance of Projects with Permit Requirements (Volume 1 Section 6.4) .....	3-12
3.7.2 Ecological Effectiveness of Different Types of Compensation (Volume 1 Section 6.5) .....	3-12
3.7.3 Replacement Ratios (Volume 1 Section 6.6) .....	3-12
3.7.4 Functions and Characteristics of Mitigation Wetlands (Volume 1 Section 6.8) .....	3-13
3.7.5 Types of Wetlands Produced through Compensation Projects (Volume 1 Section 6.9) .....	3-13
3.7.6 Suggestions for Improving Compensatory Mitigation (Volume 1 Section 6.10) .....	3-14
<b>3.8 CUMULATIVE IMPACTS TO WETLANDS AND THE NEED FOR A NEW APPROACH (CHAPTER 7 OF VOLUME 1) .....</b>	<b>3-14</b>
<b>CHAPTER 4 FRAMEWORK FOR PROTECTING AND MANAGING WETLANDS USING BEST AVAILABLE SCIENCE .....</b>	<b>4-1</b>
<b>4.1 INTRODUCTION .....</b>	<b>4-1</b>
<b>4.2 FOUR-STEP FRAMEWORK FOR PROTECTING AND MANAGING WETLANDS ....</b>	<b>4-2</b>
4.2.1 Incorporating Different Geographic Scales in the Four-Step Framework ....	4-4
4.2.2 Step 1: Analyzing the Landscape and Its Wetlands (Landscape Analysis) ...	4-7
4.2.2.1 Analyses of the Contributing Landscape and the Management Area ....	4-7
4.2.2.2 Analyzing Wetlands at the Site Scale .....	4-8
4.2.3 Step 2: Prescribing Solutions .....	4-9
4.2.3.1 Prescribing Solutions at the Scale of the Contributing Landscape.....	4-9
4.2.3.2 Prescribing Solutions at the Scale of the Management Area .....	4-9
4.2.3.3 Prescribing Solutions at the Site Scale .....	4-10
4.2.3.4 Characterizing the Risk from Proposed Solutions.....	4-10
4.2.4 Step 3: Taking Actions.....	4-12
4.2.4.1 Taking Action at the Scale of the Contributing Landscape.....	4-12
4.2.4.2 Taking Action at the Scale of the Management Area.....	4-12
4.2.4.3 Taking Action at the Site Scale .....	4-13
4.2.5 Step 4: Monitoring .....	4-13
4.2.6 Adaptive Management .....	4-14
<b>CHAPTER 5 ANALYZING THE LANDSCAPE AND ITS WETLANDS.....</b>	<b>5-1</b>
<b>5.1 INTRODUCTION .....</b>	<b>5-1</b>
<b>5.2 LANDSCAPE PROCESSES AND THEIR INFLUENCE ON WETLANDS AND THEIR FUNCTIONS.....</b>	<b>5-3</b>
<b>5.3 GOALS AND OBJECTIVES OF ANALYZING THE LANDSCAPE.....</b>	<b>5-5</b>
<b>5.4 QUESTIONS THAT CAN BE USED TO GUIDE AN ANALYSIS OF THE CONTRIBUTING LANDSCAPE AND THE MANAGEMENT AREA .....</b>	<b>5-6</b>

5.4.1 Question 1. What are the landscape processes in the contributing landscape in the absence of human alterations, and where are they located geographically? .....	5-7
5.4.2 Question 2. What are the relationships between these original landscape processes and wetlands and their functions in the management area?.....	5-8
5.4.3 Question 3. What alterations to landscape processes have occurred, and how have these changes affected wetlands and their functions? .....	5-8
5.4.4 Question 4. What geographic areas are currently important for maintaining landscape processes and can be impacted by future activities and growth?.....	5-9
5.4.5 Question 5. What measures can be used to protect and restore landscape processes in order to protect and restore wetlands and their functions? .....	5-10
<b>5.5 QUESTIONS THAT CAN BE USED TO GUIDE AN ANALYSIS OF INDIVIDUAL WETLANDS .....</b>	<b>5-10</b>
5.5.1 Question 6. What wetlands are currently performing functions that are associated with important processes identified in the landscape analysis?..	5-11
5.5.2 Question 7. What degraded wetlands or former wetlands are suitable for restoring landscape processes identified in Question 3?.....	5-11
5.5.3 Question 8. What are the functions of individual wetlands that need to be protected, preserved, or managed? .....	5-11

## **CHAPTER 6 PRESCRIBING SOLUTIONS: LANDSCAPE-BASED LAND-USE PLANS .....** **6-1**

<b>6.1 INTRODUCTION .....</b>	<b>6-1</b>
<b>6.2 OVERVIEW OF PLANNING AND THE GMA .....</b>	<b>6-2</b>
<b>6.3 THE IMPORTANCE OF INCORPORATING A LANDSCAPE PERSPECTIVE IN PLANNING .....</b>	<b>6-4</b>
<b>6.4 SMART GROWTH .....</b>	<b>6-5</b>
6.4.1 Smart Growth Can Be Used to Develop or Update Local Plans.....	6-7
6.4.2 Planning Approaches Using Smart Growth .....	6-8
6.4.3 Green Infrastructure Planning .....	6-9
6.4.3.1 The GRIST Approach .....	6-10
6.4.3.2 Implementing a GRIST Plan .....	6-12
6.4.3.3 Typical Steps for a GRIST Plan .....	6-12
6.4.4 Alternative Futures.....	6-17
6.4.4.1 Determining the Scope of the Analysis .....	6-17
6.4.4.2 Local Example of Alternative Futures Planning .....	6-21
6.4.5 Combining Complimentary Approaches .....	6-22
<b>6.5 FISCAL SAVINGS AND OTHER BENEFITS.....</b>	<b>6-23</b>
6.5.1 Using Green Infrastructure Instead of Constructing Infrastructure .....	6-23
6.5.2 Increase in the Local Tax Base .....	6-24
6.5.3 Reducing Costs of Public Services .....	6-25

## **CHAPTER 7 PRESCRIBING SOLUTIONS: COMPREHENSIVE PLANS.....** **7-1**

<b>7.1 INTRODUCTION .....</b>	<b>7-1</b>
<b>7.2 AN OVERVIEW OF COMPREHENSIVE PLANNING .....</b>	<b>7-2</b>
7.2.1 County-wide Plans and Policies.....	7-5

7.2.2 Tools for Implementing Comprehensive Plans.....	7-5
<b>7.3 MANDATORY ELEMENTS OF COMPREHENSIVE PLANS .....</b>	<b>7-6</b>
7.3.1 Land Use Element .....	7-6
7.3.1.1 Incorporating Landscape Analysis into the Land Use Element .....	7-7
7.3.1.2 Using Landscape Analysis in Different Sections of the Land Use Element .....	7-8
7.3.1.3 Landscape Analysis in the Policy Language of the Land Use Element .....	7-11
7.3.2 Capital Facilities Plan Element.....	7-17
7.3.3 Rural Lands Element.....	7-18
7.3.4 Transportation Element.....	7-19
7.3.5 Parks and Recreation Element .....	7-20
7.3.6 Economic Development Element.....	7-20
<b>7.4 OPTIONAL ELEMENTS OF COMPREHENSIVE PLANS.....</b>	<b>7-20</b>
7.4.1 Conservation Element .....	7-20
7.4.1.1 Natural Setting Element Used in Yakima County.....	7-21
7.4.2 Subarea Plans .....	7-22
<b>CHAPTER 8 PRESCRIBING SOLUTIONS: REGULATORY TOOLS .....</b>	<b>8-1</b>
<b>8.1 INTRODUCTION .....</b>	<b>8-1</b>
<b>8.2 ISSUES IN ESTABLISHING REGULATIONS .....</b>	<b>8-4</b>
8.2.1 Balancing Predictability with Flexibility .....	8-4
8.2.2 Staff Expertise and the Role of Third-Party Review .....	8-5
8.2.3 Separate Critical Area Permit vs. Provisions Throughout the Code .....	8-5
8.2.4 Risk Management for Wetland Resources .....	8-5
<b>8.3 IMPORTANT ELEMENTS OF THE REGULATORY COMPONENT OF A PROTECTION PROGRAM.....</b>	<b>8-6</b>
8.3.1 Designating, Identifying, and Mapping Wetlands .....	8-6
8.3.2 Applicability of Regulations .....	8-8
8.3.2.1 Protection of Wetlands Triggered by Various Development Permits ....	8-9
8.3.2.2 Separate Critical Area Permit.....	8-10
8.3.3 Exempted Activities, Allowed Activities, and Exceptions .....	8-11
8.3.3.1 Wetland Size.....	8-13
8.3.3.2 Size of Minimum Wetland Impact .....	8-14
8.3.3.3 Isolated Wetlands .....	8-14
8.3.3.4 Wetlands that are Prior Converted Croplands .....	8-14
8.3.3.5 Irrigation-Induced Wetlands.....	8-16
8.3.3.6 Clearing, Grading, and Placement of Fill.....	8-18
8.3.3.7 Ongoing Agriculture.....	8-18
8.3.3.8 Conversion of Wetlands to New Agriculture .....	8-19
8.3.3.9 Conversion of Agricultural Lands to Other Uses .....	8-19
8.3.3.10 Removal of Noxious Weeds .....	8-20
8.3.3.11 Forest Practices and Conversions.....	8-20
8.3.3.12 Removing Hazard Trees .....	8-21
8.3.3.13 Non-Compensatory Restoration and Enhancement.....	8-22
8.3.3.14 Stormwater Management.....	8-22
8.3.3.15 Emergency Activities .....	8-24

8.3.4	Wetland Rating .....	8-24
8.3.5	Requirements for Wetland Reports.....	8-25
8.3.6	Mitigation Sequencing .....	8-26
8.3.7	Compensatory Mitigation Requirements .....	8-26
8.3.7.1	Standards for Compensatory Mitigation .....	8-27
8.3.7.2	Special Types of Compensatory Mitigation.....	8-31
8.3.7.3	Impacts to buffers .....	8-36
8.3.8	Buffers.....	8-36
8.3.8.1	Issues Regarding the Regulation of Wetland Buffers .....	8-37
8.3.8.2	Reasonable Use Criteria .....	8-40
8.3.8.3	Buffer Averaging.....	8-41
8.3.8.4	Uses Within Buffers .....	8-41
8.3.8.5	Enhancement and Restoration of Buffer Areas .....	8-42
8.3.8.6	Best Management Practices to Enhance or Ensure Effective Functions of Buffers.....	8-43
8.3.8.7	Issues in Managing Buffers .....	8-44
8.3.8.8	Buffers in Urban Areas.....	8-46
<b>8.4</b>	<b>MONITORING THE EFFECTIVENESS OF THE REGULATORY COMPONENT OF A PROTECTION PROGRAM.....</b>	<b>8-47</b>

## **CHAPTER 9 PRESCRIBING SOLUTIONS: NON-REGULATORY TOOLS....9-1**

<b>9.1</b>	<b>INTRODUCTION .....</b>	<b>9-1</b>
<b>9.2</b>	<b>THREE CATEGORIES OF NON-REGULATORY ACTIONS TO CONSIDER .....</b>	<b>9-2</b>
9.2.1	Preservation.....	9-3
9.2.2	Conservation .....	9-4
9.2.3	Restoration .....	9-4
<b>9.3</b>	<b>FISCAL BENEFITS OF USING NON-REGULATORY TOOLS.....</b>	<b>9-5</b>
<b>9.4</b>	<b>IMPORTANT CONSIDERATIONS WHEN INCORPORATING NON-REGULATORY TOOLS .....</b>	<b>9-6</b>
9.4.1	Funding Mechanisms .....	9-7
9.4.1.1	Common Forms of Conservation Revenue in Washington.....	9-9
9.4.1.2	Land Banking .....	9-9
9.4.2	Landowner Incentives .....	9-10
9.4.2.1	Incentive-based Tools: Open Space Current Use Taxation.....	9-10
9.4.2.2	Other Incentive-Based Tools.....	9-11
9.4.3	Incentive Zoning and Regulation .....	9-12

## **CHAPTER 10 PRESCRIBING SOLUTIONS: CHARACTERIZATION OF RISKS.....10-1**

<b>10.1</b>	<b>INTRODUCTION .....</b>	<b>10-1</b>
<b>10.2</b>	<b>RISK AND THE GROWTH MANAGEMENT ACT .....</b>	<b>10-2</b>
<b>10.3</b>	<b>A PROCESS FOR CHARACTERIZING RISKS .....</b>	<b>10-4</b>
10.3.1	Identifying the Environmental Disturbances or Benefits that Result from Proposed Actions .....	10-5
10.3.2	Identifying the Risks of Disturbances to the Functions and Values of Wetlands.....	10-6

10.3.3 Proposing Measures to Minimize the Risk or Replace the Resource at Risk.....	10-7
---	------

## **CHAPTER 11 TAKING ACTIONS: REGULATORY AND NON-REGULATORY ACTIVITIES .....11-1**

<b>11.1 INTRODUCTION .....</b>	<b>11-1</b>
<b>11.2 IMPLEMENTING THE REGULATORY COMPONENT OF A PROTECTION PROGRAM .....</b>	<b>11-2</b>
11.2.1 Adequately Trained Staff or Qualified Wetland Professional .....	11-2
11.2.2 The Process for Reviewing Permits .....	11-3
11.2.3 Inspecting and Monitoring the Wetland During Construction.....	11-4
11.2.4 Enforcing Regulations.....	11-4
11.2.5 Monitoring the Effectiveness of Regulations.....	11-5
11.2.6 Educational Materials.....	11-5
<b>11.3 IMPLEMENTING THE NON-REGULATORY COMPONENT OF A PROTECTION PROGRAM .....</b>	<b>11-5</b>
11.3.1 Staffing the Non-Regulatory Component .....	11-6
11.3.2 Identifying, Mapping, and Prioritizing Sites.....	11-7
11.3.3 Creating Partnerships for Locally Sponsored Projects.....	11-7
11.3.4 Identifying a Recipient to Hold and Manage Land or Rights to Land.....	11-8
11.3.5 Establishing Funding Mechanisms and Incentives for Landowners.....	11-8
11.3.6 Educating and Involving the Public .....	11-9
11.3.7 Monitoring Preservation and Restoration .....	11-9

## **CHAPTER 12 MONITORING AND ADAPTIVE MANAGEMENT .....12-1**

<b>12.1 INTRODUCTION .....</b>	<b>12-1</b>
<b>12.2 WHAT SHOULD BE MONITORED? .....</b>	<b>12-3</b>
12.2.1 Monitoring Trends in the Resource.....	12-3
12.2.2 Monitoring the Implementation of Protection Measures .....	12-4
12.2.2.1 Monitoring Implementation at the Scale of the Contributing Landscape.....	12-5
12.2.2.2 Monitoring Implementation at the Scale of the Management Area .....	12-5
12.2.2.3 Monitoring Implementation at the Site Scale .....	12-6
<b>12.3 ADAPTIVE MANAGEMENT .....</b>	<b>12-6</b>

# List of Tables

Table 1-1. Ecological principles and their implications in making decisions about land use (adapted from Dale et al. 2000 to focus on wetlands rather than land use in general). .....	1-9
Table 3-1. Subclasses and families of wetlands in different regions of Washington State (Hruby et al. 1999, 2000). .....	3-3
Table 3-2. Summary of types of environmental disturbances created by some types of land use. .....	3-6
Table 3-3. Synthesis of the information reported in the literature on the negative impacts of different human disturbances on wetland functions.....	3-8
Table 3-4. Synthesis of the negative impacts of some land uses on wetland functions..	3-9
Table 9-1. Common sources of financing for conservation.....	9-7
Table 10-1. An example of a table summarizing risks associated with common land-use actions.....	10-6
Table 10-2. An example of a table summarizing the risks of land-use actions and measures to minimize the risks. ....	10-7
Table 12-1. Monitoring common solutions to protecting and managing wetlands at the scale of the management area.....	12-6

# List of Figures

Figure 4-1. A suggested framework for local governments to use in protecting and managing wetlands.....	4-3
Figure 4-2. An example of contributing landscape, management area, and site scales..	4-5
Figure 4-3. Four-step framework incorporating the three geographic scales. ....	4-6
Figure 5-1. Step 1 in the process of protecting and managing wetlands (analyze wetland resources).....	5-1
Figure 5-2. Wetlands and their functions are an expression of landscape processes. Wetland functions can in turn modify the landscape processes.....	5-4
Figure 6-1. Developing plans and policies fits into Step 2 within the four-step framework recommended for protecting and managing wetlands.....	6-1
Figure 6-2. Conceptual representation of a landscape that has been inventoried as part of creating a GRIST plan (Figure provided by Heritage Conservancy, a non-profit land trust based in Doylestown, PA). ....	6-14
Figure 6-3. Conceptual representation of how hubs and links are identified as part of creating a GRIST plan (Figure provided by Heritage Conservancy, a non-profit land trust based in Doylestown, PA).....	6-15
Figure 6-4. Conceptual representation of a completed GRIST plan (Figure provided by Heritage Conservancy, a non-profit land trust based in Doylestown, PA).....	6-16
Figure 7-1. Comprehensive planning is part of Step 2 in the four-step framework recommended for protecting and managing wetlands. ....	7-1
Figure 8-1. Developing regulations is part of Step 2 in the four-step framework discussed in this volume. ....	8-1
Figure 9-1. Developing non-regulatory tools is part of Step 2 in the four-step framework for protecting and managing wetlands. ....	9-1
Figure 10-1. Characterizing risks is part of Step 2, Prescribing Solutions, within the four-step framework recommended for protecting and managing wetlands. ....	10-1
Figure 11-1. Implementing regulatory and non-regulatory components of a wetland protection program is Step 3 in the four-step framework presented in this volume .....	11-1

Figure 12-1. Monitoring is Step 4 of the four-step framework discussed in this volume, and Adaptive Management provides feedback for improving wetland protection programs.....12-1

Figure 12-2. Conceptual representation of how wetlands can be protected and managed using adaptive management.....12-2

# Acknowledgements

As with Volume 1, a great effort was put forth to complete this volume. A huge thank you is extended to the authors and Core Team members who spent many hours discussing, writing, and re-writing the public review draft as well as the final, some working after hours and on weekends. They deserve great kudos for their patience during the many rounds of edits that took place.

A special acknowledgement goes to Sara Noland of 2N Publications and Dyanne Sheldon of Sheldon and Associates for their work on the draft. Both went beyond the "call of duty" writing, reviewing and editing text while attending to their other demanding responsibilities. Sara had the patience of a saint as she edited text from multiple authors and incorporated Core Team comments throughout the process. Tom Noland of 2N Publications also lent his creative technical support during the production of the draft.

The team of local government staff that advised the Core Team during the development of the draft document are also acknowledged. The Local Government Wetland Advisory Team met numerous times to discuss complex and heated issues and provided invaluable suggestions and perspectives.

Steve Penland from the Washington State Department of Fish and Wildlife is commended for his responsiveness and collaboration on various iterations of this volume, as is Katherine March for her participation on the Core Team and Bob Ziegler for his review comments. Thanks to Michael Rylko from U.S. Environmental Protection Agency for lending his expertise on landscape-based land-use plans.

Tom Hruby of the Washington State Department of Ecology went beyond the call of duty to gladly work on any task asked of him even if they involved chapters not of his authorship. Thank you also to Erik Stockdale for his painstaking work on the reference list and glossary.

Thank you to Susan Grigsby of Ecology for her responsiveness and technical assistance related to landscape analysis. Ecology staff Yolanda Holder and Paige Boulé are both acknowledged for their ready willingness to finalize and proof files; checking spelling, formatting, pagination, and reading the text from the standpoint of a non-expert. Donna Bunten of Ecology assisted with proofing the copy-ready version. Thank you to Tim Schlender of Ecology for working on the covers and assisting with the development of the web site and posting of the documents on the site.

Dana Mock of Ecology must be praised greatly and thanked profusely for her dedication, persistence, thoroughness, and patience during the completion and distribution of the final document. The project could not have been completed (nor would it have been as much fun) without her.

Special kudos also to Teri Granger for again managing an overwhelming project with aplomb. Working with an advisory team, multiple authors, and the support staff needed to

produce a coherent guidance document (as well as writing and editing) is akin to herding cats; tasks Teri does with patience, skill, and tact.

Andy McMillan must be applauded for his inspiration regarding the entire project and the production of both volumes. He served as the wise leader and creative problem-solver for all aspects of the project, and he is a good writer to boot. In addition, as noted in Volume 1, he obtained funding for the project from several sources. In the most literal sense, the project would never have happened nor been successful without his extensive knowledge, skills, and experience. In this sense, this tome is his.

The U.S. Environmental Protection Agency provided the primary financial backing for Volume 2 as it did for Volume 1. The Washington Department of Ecology also contributed funding for this volume. As with Volume 1, we thank the agencies for their support in undertaking such an ambitious endeavor.
